CONCEPT

NATURE

Nature is used more generically for natural things or the normal working of the law of nature. It has always been a source of inspiration to a human. Its been used to attract the attention to the beautiful nature outside.

It is used to create a warming effect in the house with the help of inner plants and lights and air. Two open courtyards with sky lights, use of glasses, windows and sliding doors are created. More natural lights and air space is provided being a nature level, to make it feel the client near the greenery, sky and air.
